**How to use this document.** Section 4 is the master schedule — post the matching Facebook caption or TikTok script from Section 5 on the scheduled day. Keep the same brand voice: warm, confident, helpful, and local (Burmese-first, English second). Post at the recommended times and tag @nexcard on both platforms. Use the hashtag sets in Section 6 to expand reach.

PRIMARY GOAL FOR 60 DAYS

**1,200+ profile visits · 300+ early users · 60+ paid cards**

Facebook Reach + TikTok Views  
drive signups & QR/NFC card sales

What we are selling

NEX CARD is a platform where anyone creates a shareable digital identity page — a **digital name card**, a **personal portfolio**, a **business advertisement page**, or a **wedding invitation** — and shares it through a unique URL and a QR code. Premium pages unlock NFC cards (tap to share) and premium templates, with a one-time payment in MMK and admin-verified proof of payment.

Target audience (Myanmar market first)

 **Audience 1 — Professionals**

Engineers, designers, freelancers, salespeople, agents who hand out paper cards and want a shareable digital card + QR.

 **Audience 2 — SMEs & Shop Owners**

Restaurants, salons, clinics, small traders who need a mobile business page, business hours, and promotions in one link.

 **Audience 3 — Couples & Event Planners**

Engaged couples wanting a digital wedding invitation page with RSVP-style milestones and photo gallery.

 **Audience 4 — Job Seekers & Creators**

Graduates and creators who need a portfolio page to link in their CV / TikTok bio.

Campaign phases

| PHASE      | WEEKS             | FOCUS                                          | KEY GOAL                                   |
|------------|-------------------|------------------------------------------------|--------------------------------------------|
| PRE-LAUNCH | W1–W2 (Day 1–14)  | Teaser, education, waitlist, brand story       | Build anticipation & collect early signups |
| LAUNCH     | W3–W4 (Day 15–28) | Product reveal, features, templates, promo     | Convert interest → first paid users        |
| GROWTH     | W5–W8 (Day 29–56) | Social proof, case studies, offers, engagement | Scale reach, signups, and repeat users     |

Cadence (weekly rhythm)

| PLATFORM | POST DAYS                 | BEST TIMES (MYANMAR TIME, UTC+6:30) | POST TYPES                                           |
|----------|---------------------------|-------------------------------------|------------------------------------------------------|
| Facebook | Mon · Wed · Fri · Sun     | 7:00–8:30 PM (peak) · Sun 9–11 AM   | Carousel, image + long caption, reels, polls, live   |
| TikTok   | Tue · Thu · Sat (+ bonus) | 12:00–1:00 PM & 7:00–9:00 PM        | 15–35s video, trending audio, before/after, tutorial |

**Rule of thumb:** Facebook = relationship & conversion (captions carry the story). TikTok = reach & awareness (hook in the first 2 seconds). Reuse the same topic on both platforms but reformat.

The 4 categories we sell

| CATEGORY           | WHO IT'S FOR                                      | SAMPLE TEMPLATES                               |
|--------------------|---------------------------------------------------|------------------------------------------------|
| Digital Name Card  | Professionals & freelancers — one-page identity   | Titanium · Prism · Obsidian · Coral · Aurora   |
| Portfolio          | Creators, developers, job seekers — work showcase | Canvas · Studio · Forge · Spectrum · Blueprint |
| Business Ad        | SMEs & shops — services, hours, promotions        | Vault · Neon · Marquee · Empire · District     |
| Wedding Invitation | Couples — digital invite, gallery, milestones     | Rustic · Noir · Eternal · Celestial · Blossom  |

Pricing tiers (one-time, MMK)

| TIER     | WHAT THE USER GETS             | MARKETING ANGLE                               |
|----------|--------------------------------|-----------------------------------------------|
| QR Only  | QR code for the digital page   | "Free to scan, instant to share"              |
| NFC Card | Physical NFC tap-to-share card | "Tap once — your whole identity transfers"    |
| NFC + QR | NFC card with QR fallback      | "Double the ways to connect" — flagship offer |

Key features to feature in content

 **Unique URL / slug**

Every profile gets a clean link (yourname.nexcard) — put it in your TikTok bio.

 **NFC tap-to-share**

Tap the card on any NFC phone — opens the profile instantly.

 **QR scan analytics**

See how many times your card was scanned — proof it works.

 **20 premium templates**

Four categories, five designs each — a look for every person and brand.

 **MMK one-time payment**

Simple, transparent, local-payment proof workflow.

 **Wedding pages**

Digital invitations with story, photos, and milestones.

Brand voice & tone

**Voice:** warm · confident · local · modern. Burmese-first, English second.

**Always include:** a clear benefit, a call-to-action, one hashtag cluster (Section 6), and a branded visual.

**Never:** hard-sell without value, post without an image/video, ignore comments, spam DMs.

Six content pillars (60% educational, 25% showcase, 15% social proof)

| PILLAR               | MESSAGE                        | EXAMPLE POSTS                                          |
|----------------------|--------------------------------|--------------------------------------------------------|
| P1 Education         | Why digital cards beat paper   | "ဒီကဒ် ဘာကြောင့် paper card ထက် သာလဲ?" / Why QR cards? |
| P2 Product Showcase  | Features & templates in action | Template tours, NFC demo, QR demo, before/after        |
| P3 Social Proof      | Real users, real results       | Testimonials, case studies, scan-count screenshots     |
| P4 Use Cases         | Who needs NEX CARD             | Agent, barista, salon, clinic, engaged couple          |
| P5 Behind the Scenes | Team, values, build journey    | Office, design process, "we built this"                |
| P6 Offers & Promos   | Launch deal, referrals         | Launch discount, refer-a-friend, limited cards         |

Format playbook per platform

TikTok filming tips

- ❑ Shoot vertical 9:16, 1080×1920, bright lighting.
- ❑ Hook in the first 2 seconds (see Hook Library in Section 3).
- ❑ Add captions for muted viewers — most watch without sound.
- ❑ Use trending audio but keep the message local and clear.
- ❑ End every video with one CTA: "Link in bio" or "Comment \_\_\_\_".

Tools to track

**Native insights**

Facebook Page Insights + TikTok Analytics — reach, views, followers, top posts. Review every Sunday.

**NEX CARD dashboard**

Profile view count + QR scan count per user — use real numbers in "stats" posts (S21, S24).

Weekly review routine (30 min, every Sunday evening)

- ☐ Record reach, engagement, and clicks for the week in a tracker sheet.
- ☐ Identify the top 2 posts — clone their style next week.
- ☐ Check the calendar — prepare the next week's assets.
- ☐ Reply to all comments & DMs within 24 hours.
- ☐ Adjust: if TikTok views low → shorten videos & use trending audio.

Before launch (Week 0)

- ☐ Create & verify Facebook Page and TikTok account (@nexcard).
- ☐ Set up bio link (FB) and bio link/website (TikTok) to the live landing page.
- ☐ Create the landing page waitlist / early-access signup.
- ☐ Prepare 20 template mockups + brand kit (logo, colors, fonts).
- ☐ Batch-produce Week 1–2 assets (Section 7 checklist).
- ☐ Add "Message" CTA button on Facebook (WhatsApp/Page DM).

Community management rules

- ☐ Reply to every comment within 24 hours — speed builds trust.
- ☐ Never delete negative feedback — respond professionally and fix it.
- ☐ Collect testimonials: after each approved card, ask for a 1-line review + photo.
- ☐ Encourage UGC: "Show us your card" monthly challenge.

**Final tip.** Consistency beats intensity. Posting 4×/week on Facebook and 3×/week on TikTok for 8 weeks — using this calendar — will establish NEX CARD as the go-to digital identity brand in Myanmar. Track, adapt, and always end with a clear CTA.
